## MEDICAL PRODUCTS

Serving the Industry Since 1937

### Compression Braces

Our lightweight elastic ankle, knee & elbow compression braces offer the wearer a full range of motion for treating minor strains and sprains. The contour design and stretch polyester provides flexibility along with circular compression which helps keep the sleeves from slipping. These compression braces keep limbs warm and insulated while maintaining support and stability to stiff, weak, and swollen limbs. They can be worn day and night and fit easily beneath clothing.

Available in black or tan.

Part Number	Size	Limb Circumference	Packaging
