## **Valuelastic Elastic Bandages**

**Our Valuelastic is an economy grade latex-free elastic bandage. The woven construction and cotton yarns offer a better value to polyester knitted bandages on the market which fall apart after a limited use. The balanced stretch and compression assist with the treatment of minor strains and sprains along with securing splints and hot/cold packs.**

**The Valuelastic are individually wrapped in plastic, secured with elastic stretch clips and packaged in dispenser boxes.**
